OPERATION BUG BUSTERS

EVERY SYSTEM SWEARS IT IS SECURE. EVERY LEADER
SWEARS IT CANNOT HAPPEN TO THEM.

A man in a dark suit is seen from behind, standing on a high-rise floor and looking out over a sprawling city skyline at night. The city is illuminated with warm yellow and orange lights, contrasting with the dark blue and black of the night sky. The Empire State Building is prominent in the background, its spire reaching towards the stars. The man's reflection is visible in the glass window he is looking through.

A man in a dark suit and tie is shown from the chest up, looking directly at the viewer with a worried expression. His eyes are wide and his mouth is slightly open. The background is a dark, smoky city skyline at night, with some buildings illuminated by a blue light. A speech bubble is positioned above his head.

BUT... BUT WE
PATCHED!

A dark, monstrous figure with glowing orange eyes is shown from the chest up. The figure has a rough, textured appearance and is surrounded by computer monitors displaying green code. The background is dark and filled with more monitors and equipment.

PATCHED?
